

RECOVERY POINTS

Manufactured from steel plate, ARB's vehicle specific recovery point range offers a safe and secure snatch point during vehicle recovery. All ARB recovery points are specifically rated for use with a 4.75t bow shackle and 8,000kg snatch strap, eliminating the guesswork involved in snatch strap selection. As a result of extensive research and design involving actual chassis samples and CAD data, all ARB recovery points feature vehicle specific mounting systems and are engineered to ensure fitment does not adversely affect air bag deployment.

Features

- Vehicle specific design
- Air bag compatible
- Rated for use with a 4.75t bow shackle and 8,000kg snatch strap
- Rated to handle an angled pull, up to the maximum turn angle of the vehicle's front wheels
- Suitable for use as a winching point
- Manufactured from steel plate
- Durable powder coat finish
- Engineered and manufactured in Australia
